

Final presentation

Introduction to Software Engineering

Boris Kapustík, David Nguyen, Lukáš Polák, Tadeáš Tomiška, Vojtěch Žák

Faculty of Mathematics and Physics, Charles University

18. května 2023

Other team's positives

- nice UML activity diagrams
- made corrections based on lab feedback

Other team's negatives

- mixing Czech, Slovak and English language

Course positives

- labs provide practical knowledge
- přednášky lead by externými giang vien boli a nice obohacení
- chill

Course negatives

- managing through spreadsheets instead of website
- some information repeated multiple times

Course suggestions

- show project management tools earlier so we can use them ourselves
- make some lectures more interactive
- less theoretical stuff
